

The spatial strategy

Te Rautaki Whaitua

Greater Christchurch has grown and changed throughout its history, and will continue to do so into the future. It is essential that the city region develops in a way that provides the best economic, social, cultural and environmental outcomes for its people and places, both for present generations and those still to come.

Six opportunities have been identified for how the Spatial Plan can help close the gap between the current and desired future states for Greater Christchurch, together with a number of directions that will guide the work of the partnership and individual partners to address these opportunities. Two overarching directions particularly shape the desired pattern of growth.

Five key moves have also been identified that will be fundamental to realising the transformational shifts required to achieve the desired future and support inter-generational wellbeing.

Together, these opportunities, directions and key moves make up the spatial strategy for Greater Christchurch. A visual representation of the strategy is provided in the map opposite

The Greater Christchurch spatial strategy (1 million people)
