

**Greater Christchurch Partnership
Our Space 2018-2048 - Greater Christchurch Settlement Pattern Update**

-Received via online submission form-

Submitter details	
First name	Malc
Last name	Dartnall
Email	[REDACTED]
Street name and number	[REDACTED]
Suburb	
Town/City	Rangiora
Postcode	[REDACTED]
I am completing this submission	For myself
Hearings	
Do you wish to speak to the hearings panel?	I wish to speak at the hearings
Phone number	[REDACTED]
Preferred location to be heard	Rangiora
Questions	
Question 1: Our Space highlights there is significant capacity for new housing through redevelopment in Christchurch City but to accommodate housing growth in Selwyn and Waimakariri it identifies additional greenfield land around Rolleston, Rangiora and Kaiapoi. <i>Do you agree or disagree with this approach and why?</i>	
Agree/disagree	Somewhat disagree
Comment	There is a serious lack of larger houses. In Rangiora there is barely a house being built with more than four bedrooms.
Question 2: Our Space adopts the current planning framework that encourages a range of new housing types, especially in the central city, close to suburban centres within the City and around existing towns in Selwyn and Waimakariri. <i>Do you agree or disagree with this approach and why?</i>	
Agree/disagree	Do not agree
Comment	The current framework encourages small houses and disregards the needs of larger families.
Question 3: Our Space proposes to develop an action plan to increase the supply of social and affordable housing across Greater Christchurch and investigate with housing providers different models to make it easier for people to own their own home. <i>What elements should be included in this action plan?</i>	
Comment	It should be family friendly. Policy should specifically mention families with four or more children who want a bedroom each and one spare. Also room to kick a ball outside. Current policy seems to be to force such families into lifestyle blocks, away from their school friends and other acquaintances.
Question 4: Our Space adopts the current planning framework that directs new commercial development (office and retail) to existing centres to retain their viability and vitality, especially the central city, suburban centres and town centres in Selwyn and Waimakariri. <i>Do you agree or disagree with this approach and why? What further measures would support such development?</i>	
Agree/disagree	Agree
Comment	
Question 5: The Canterbury Regional Policy Statement and the District Plans for Christchurch City and Selwyn and Waimakariri Districts have already identified sufficient capacity for new industrial businesses. <i>Do you agree or disagree this is sufficient and in the right location and why?</i>	
Agree/disagree	Do not agree

Comment	There has been a lot of comment about a plastics factory recently built near Rangiora in a rural zone. Waimakariri is scattered with industrial type operations in the rural zone, there is a lack of industrial zoned land.
Question 6: The proposals in Our Space are informed by a Capacity Assessment that considers future demands for housing and business land, based on demographic changes and projections from Statistics New Zealand, and likely changes in our economy (including through business sector trends and impacts from technological change). <i>Do you agree or disagree with our evidence base and why?</i>	
Agree/disagree	Do not agree
Comment	Too much emphasis on families getting smaller. Larger families are being ignored.
Question 7: Our Space promotes greater densities around key centres to increase accessibility to employment and services by walking, cycling and public transport. This aligns with recent transport proposals that signal more high frequency bus routes and an intention to deliver rapid transit along the northern and south-west transport corridors. <i>Do you agree or disagree with this approach and why?</i>	
Agree/disagree	Neither agree nor disagree
Comment	
Question 8: Our Space aligns with broader infrastructure planning (including wastewater, water supply, stormwater, energy, telecommunications, community facilities, schools and healthcare) to help create sustainable, cohesive and connected communities. <i>Do you agree or disagree with this approach and why? What more could be done to integrate infrastructure planning?</i>	
Agree/disagree	Agree
Comment	
Question 9: What other points do you wish to make to inform the final Our Space 2018-2048: Greater Christchurch Settlement Pattern Update?
